

## Business

Hear from a panel of current students who will share with you their experience as a W. P. Carey student! Direct admission to our programs means you're a business student from your first day, providing you with an excellent opportunity to match business with your passion.

Presented by: The W. P. Carey School of Business

## Design, Art and Performance

If you were born to express yourself creatively, you can choose from architecture, art, dance, design, media arts and sciences, film, theatre, music and more. Create your individualized plan and study at the nation's largest design and arts school within a research university.

Presented by: The Herberger Institute for Design and the Arts

## Engineering and Computing

Are you interested in becoming an engineer, computer programmer or working with artificial intelligence? We treat our students as engineers from day one. Discover the 25 degree programs offered by the Fulton Schools and how to customize your experience through the Fulton Difference.

Presented by: The Ira A. Fulton Schools of Engineering

## Innovation, Sustainability and Making an Impact

Are you interested in creating a sustainable, equitable, and vibrant future for everyone on a thriving healthy planet? Join us in shaping tomorrow, today. This session will cover innovative degrees from the College of Global Futures, careers that our students pursue, and how we can help you make an impact in local and global communities.

Presented by: The College of Global Futures

## Exploratory

Unsure or maybe you have too many interests? Learn about what it means to be an Explore student and the student support you will receive in selecting your major. This program allows you to select one of four Explore tracks to begin your academic journey. Three major and career exploration courses anchor the Explore experience, where you will learn more about your interests, skills and abilities to then select the best major and career path for you.

Presented by: University College

## Liberal Arts and Sciences

The College, known as the academic heart of ASU, is home to more than 100 degrees in the humanities, natural sciences and social sciences -- from space exploration to medicinal chemistry to history and global studies. Attend our academic session to explore your options and learn about what your experience will be like as a student in The College.

Presented by: The College of Liberal Arts and Sciences

## Organizational Leadership

Do you want a career in a new break-out field, a solid foundation for graduate or professional school, or to complete a degree you started elsewhere? Learn about our degrees that emphasize career-connected learning and prepare graduates who can integrate knowledge.

Presented by: The College of Integrative Sciences and Arts

## Speech and Hearing

At the College of Health Solutions, we focus on improving health for everyone by reaching people where they live, learn, work, play and age. Graduates of our speech and hearing science programs gain the knowledge and skills needed to work in hospitals, schools and private business as audiologists, speech-language pathologists, and assistants in audiology, speech-language pathology and research.

Presented by: The College of Health Solutions

## Teachers and Educators

Mary Lou Fulton Teachers College is proud to play a key role in advancing education, both for classroom teachers and system leaders. We're not only making huge advancements in how we prepare educators, we're also working to improve education systems for all learners and educators. Learn more about MLFTC efforts and highlights to get to know our college and the work we are doing to improve education.

Presented by: The Mary Lou Fulton Teachers College
