Nursing and Health Innovation
The modern health care industry is evolving and in need of health professionals who can provide high-quality patient care and develop innovative solutions. Graduates embark on meaningful careers in community health, clinical research, disease prevention, and health and wellness programs. Join us to learn how we are taking an interdisciplinary approach to prepare students for the next generation of health care careers.

International Business
With your global outlook, passion for travel and culture, and desire for an international career, Thunderbird’s new bachelor’s degree programs will position you as a global business leader, ready to adapt and thrive in an ever-changing international business environment. Learn from graduate-level faculty in interactive, discussion-based classroom experiences that deepen your learning. Attend to discover how you can stand out in a world of possibilities.

Presented by the Thunderbird School of Global Management

New College
Are you fascinated by the study of psychology or sociology? Or how about a career in environmental science, statistics or forensics? Many of our undergraduates engage in meaningful research partnerships, and have the opportunity to publish research papers and become recognized in their industry. Come experience what a liberal arts education from New College at the West campus truly means.

Presented by the New College of Interdisciplinary Arts and Sciences

Public Service
We are committed to service and are deeply engaged in the community, enabling us to be part of the solution we want to see in the world. A career in public service can come in many forms: nonprofit leadership, parks and recreation management, social work, community sports management, criminology, criminal justice and more.

Presented by the Watts College of Public Service and Community Solutions

Teachers and Educators
Making an impact as an educator is a way to make an impact on a community. Listen to a panel of current students talk about their experiences and explore your options as an educator in early childhood, elementary, secondary, special and bilingual education.

Presented by the Mary Lou Fulton Teachers College

Health Solutions
Are you interested in becoming a health and wellness coach, medical doctor, or healthy lifestyle coach? Our graduates are well-equipped to make a positive difference in health and health care as the industry continues to evolve. Come explore the range of health and wellness degrees offered at the West campus.

Presented by the College of Health Solutions
